SmartAcad

making education smarter... enabling the future

It's the desire of
any great parent to
go to any extent to
get their children
the best Education
possible.

What is SmartAcad?

SmartAcad is an academic management and e-learning solution. With SmartAcad®, unlike any other academic management solution, Intelligence development modules engages the kids and develop their intellectual quotient.

The first of its kind in West Africa and completely online. That means absolutely no paperwork, hardware or software installations. All your schools information is kept on our secure servers and made accessible to students, teachers and parents. This means parents can check their child's results, reports and other important info on the go.

We have the
SOLUTION

With Ekaruz technology we have developed an academic management system that is truly hassle free, easy to use and ever improving. SmartAcad runs on a cloud system which means no paperwork and an accessible online management system that will involve students, teachers and parents more effectively.

We at Ekaruz technology believe in driving African education into the new technology era and we created SmartAcad for this purpose. Most academic management systems turn out to be complicated, rigid and rarely solve the main problems schools face. But SmartAcad actually offers a hands on approach that allow you to modify the platform to suit your purpose.

Parents and teachers can very easily check the progress of any child while students can also access assignments and also take advantage of our smart career platform where they receive monthly updates, videos and other useful materials regarding their prospective chosen fields. And we do all this because we care!

We can effectively organise and present academic data to parents in easily accessible ways, one of which is sending academic data directly to parents mobile phones and electronic mails via our smart messaging platform. So, what are you waiting for , join the smart revolution today, relax and let SmartAcad make your academic processes easier and more productive.....

01

RESULT MANAGEMENT SYSTEM

Helps in preparing and publishing student results, also helps to collate all student results for tests, mid-terms and end of term results. Through this platform, parents can view and comment on their wards academic performance from absolutely anywhere.

* Prepare and publish results
* Print fancy customized report cards
* Send out results to parents e-mail addresses

ASSIGNMENT MANAGEMENT SYSTEM

Teachers formulate assignments and upload them to the portal, students can log in downloads, complete, and upload their solutions for the teacher to grade, and all these can be done even if the school is on holiday! So the students keep learning even on holiday.

* Create homework assignments in seconds and define due dates.
* Share them instantly with your students

02

GRAPHICAL PERFORMER AND ANALYSER

Generate graphical representation of students performance, with this parents and teachers can effectively analyse and detect the subjects where the students are not doing so well, so as to work on those areas.

* Generate graphical representation, subjects against score
* Monitors students' performance in each subjects

FINANCE MANAGEMENT AND SCHOOL FEES TRACKING

Manages every form of financial transaction between the school and the parents.

* Parents can pay school fees online
* Create a list of school fees defaulters
* See outstanding balances at a glance

TIME TABLE MANAGEMENT SYSTEM

The school time table or schedule, management can view time table by students, teachers also. It also makes for:

* Customize teaching periods
* Reconciles time-table conflicts or clashes
* Publish to students and parents as soon as the time table is ready.

SMART CAREER MODULE

Create a consciousness of the future in the mind of students by always keeping them up to date by sending update, videos and other useful materials on the different career paths they want to pursue in the future.

* Helps students prepare for the future they desire
* Sends updates and useful career based information to students

SMART MESSAGING SYSTEM

A simple messaging system that enables the school management effectively communicate with parents. So, no school today? Have a message you need to communicate urgently? Send out text and e-mails directly to parents whenever you need to.

* Effectively communicate with parents
* Parents can also reply the school concerning any issues via this platform
* Send out result notifications and events feed directly to parents

ELECTRONIC EXAMINATION SYSTEM

Teachers can create exams and tests online, and students also sit for and take this exam online. This platform is also responsible for marking and grading the exams and publishing them immediately.

* Fast and easy online assessment
* Students can view their score immediately and know how well they did in the test

EXIT AND LEAVE MANAGEMENT SYSTEM

Parents can apply for exit or leave permission for their wards without coming to the school, all they have to do is fill the form online and submit it.

* Formal and comfortable way to apply for exits for their wards
* Sends management response back to the parents in e-mail format via this platform
* Keeps a record of all exits applications from every parents

03

SmartCloud

Web-Based is Better

Basically, you have two choices when it comes to selecting a student information system:

Web-based or **Client-server.**

Why choose SmartAcad?

IT support

SmartAcad dramatically reduces the overall cost of IT labour.

IT personnel do not need to participate in system upgrades, backup of data, security and system maintenance.

SmartAcad takes care of all this.

Reliability

SmartAcad offers 100% uptime. Our online system allows schools to eliminate many, if not most, paper based communications - report cards, calendars, schedules, newsletters, notifications, and much more. Schools can simply make all of these items available online for easy access by parents and students. This allows students to be more involved in school issues on a daily bases, and allows for a real time communication.

All of this is accomplished with much greater efficiency and far less expense.

04

Smart kids *need* SmartAcad

✳ A smart kid likes to be well organized and coordinated. SmartAcad helps smart kids be better organized through a well structured school/subject plan which makes them morefocused.

✳ Smart kids are always top of their class. SmartAcad helps them to achieve this by showing performance analytics through well structured graphs of the subjects indicating high ratings that needs to be sustained and low ratings that needs improvements. As smart kid you focus more on become the best student that they can be.

✳ Smart kids wants to be exposed to the global tech environment. SmartAcad exposes them to the global tech community and trends in the global tech environment.

✳ Smart kids love to have fun. SmartAcad enhances this and infuses it into positive educational purposes through its interactive, simple and flexible interface thereby allowing the kids to learn even more while playing our videos and working with our educational materials.

✳ Smart kid wants to have a great future & career. We at SmartAcad helps nurture your child's career through our career modules, making life, easier and better.
